

FUERZA

SafeGuard Plus

COVID-19 PROTECTIVE SHIELD

- *PORTABLE*
- *LIGHTWEIGHT*
- *CHEMICAL-RESISTANT*

PROTECT YOUR STUDENTS THIS SCHOOL YEAR WITH
FUERZA's SAFEGUARD PLUS!

FUERZA's **SafeGuard Plus** offers optimum protection against the spread of coronavirus in schools. Designed for standard 18"x24" desks, the lightweight yet rigid .040 thick PETG shield features die cut handles and non-permanent velcro attachments that allow students to bring their **SafeGuard Plus** to and from class.

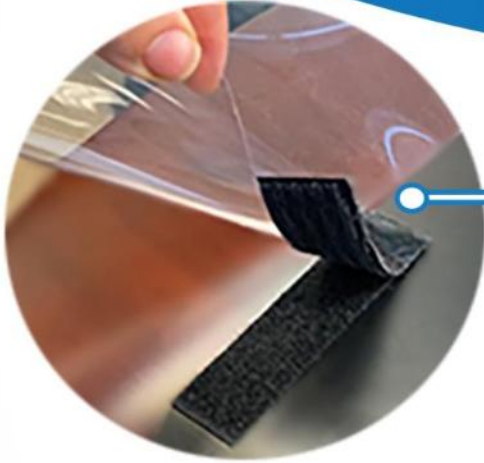

PETG provides more chemical-resistance than most see-thru products, which allows the **SafeGuard Plus** to hold up against cleaning agents.

SafeGuard Plus

BY FUERZA

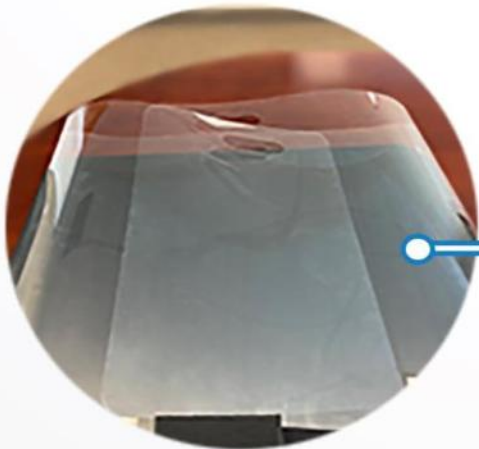

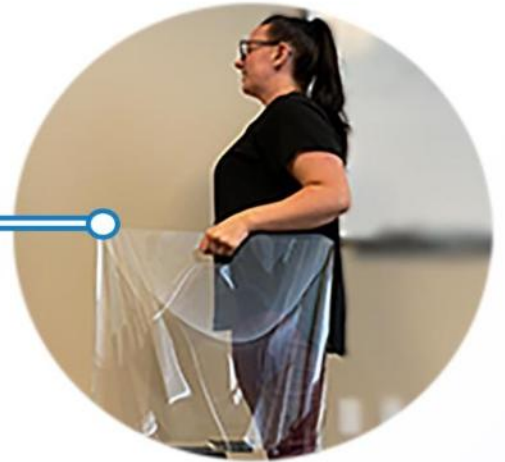

Non-Permanent Velcro Attachment

SafeGuard Plus velcro attachments prevent permanent damage to school desks and provide the ability to remove shields for cleaning or traveling to and from class.

Easy To Use Built-In Handles

FUERZA's SafeGuard Plus was built with kids in mind. These simple die-cut handles make the lightweight shield portable for changing classes.

Tri-Fold Design for Simple Storage

SafeGuard Plus features collapsible sides designed for both transportation and basic storage. The PETG plastic folds into one compact unit.
